

Appl. No. 10/031,342

REMARKS

The present amendment is submitted herewith to amend claim 105. The proposed change is merely editorial in nature. Specifically, the change from "- inserting at least one amino acid which comprises a foreign T_H epitope" to "- inserting at least one amino acid sequence which comprises a foreign T_H epitope" falls under the heading "obvious errors" because an amino acid cannot comprise a T-helper epitope.

The proposed change does not add new matter nor does it raise any new issues. Accordingly, entry thereof is requested.

If necessary, the Commissioner is hereby authorized in this, concurrent, and future replies, to charge payment or credit any overpayment to Deposit Account No. 02-2448 for any additional fees required under 37 C.F.R. §§ 1.16 or 1.17; particularly, extension of time fees.

Respectfully submitted,
